

Diagram illustrating the VMC catheter tip. The catheter is shown with a rounded tip. A label "VMC catheter tip" points to the rounded end. Another label "Guidewire lumen" points to a small circular opening at the tip, indicating the location of the guidewire lumen.

Diagram illustrating a VMC catheter (104) with a sensing arm extended (102). The catheter features a guidewire lumen and a 2- or 3-axis MEMS accelerometer (106) located at the tip of the sensing arm.
